

Installation manual Universal suspension type "Y"

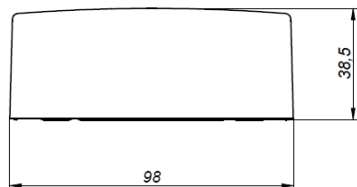

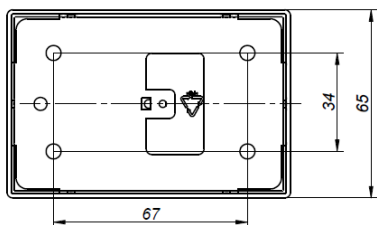

IP20

EAC

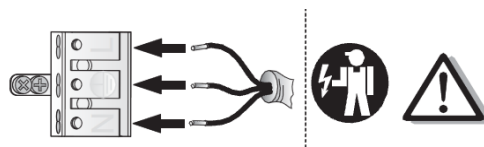

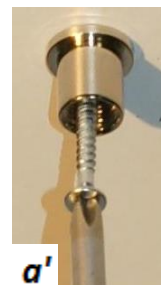

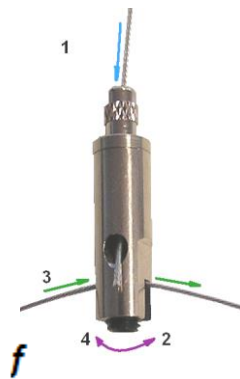

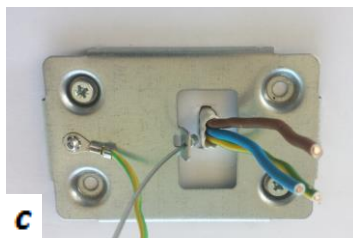

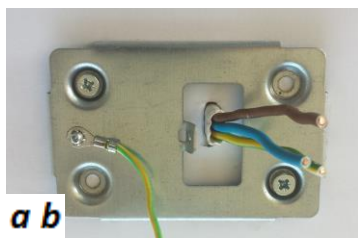

230V/50HZ

1. Dimensions, mounting holes.

2. Assembly

- a) pull the wire through the hole in the base of suspension
- b) using 2 dowels placed on the cross, screw the base of the suspension box to the ceiling
- c) pull the line through the hole in the suspension base
- d) connect installation wire with feeding wire using electric cube
- e) put the wire and line in the box, put on the cover of the suspension on
- f) arm the line joint:
 1. put the line into the joint's upper pin and screw the nut
 2. unscrew the lower screw (Allen key)
 3. pull the part of the line (cut from the line included in the set) so the middle will be placed above the screw
 4. screw the lower screw tightly
- g) screw the regulator on the back of the luminaire into brass sleeves
- f) put the ends of lines into the regulators (same like the joint's upper pin)
- a') in the simple suspension screw the base of the suspension to the ceiling
 pull the line through the nut, screw it into the base of suspension

3. Important warnings:

The manufacturer cannot be considered liable for any damages deriving from improper, wrong and unreasonable use of the fitting. Luminaires may be installed by qualified personnel only. Any manipulation inside the luminaire when power supply is on causes the risk of electric shock. Manufacturer is not responsible for any flaws caused by avoid using this manual. Manufacturer reserves a right to change the construction of the product. Do not assembly in places without air circulation. To guarantee safety of luminaire functions, please assembly according to instruction.

The European Directive 2002/96/EC on waste electrical and electronic equipment, requires that electric and electronic devices must be disposed of in the normal household waste. The crossed out wheeled bin is reproduced in order to remember obligations towards separately collection. For correct disposal, please use authorized waste disposal facilities or returned to the distributor at the date a new lighting fitting is purchased. Lamps, if disposed together with the lighting fitting, shall not be broken up since they contain substances which are highly polluting for the environment. Unauthorized disposal of the foregoing waste material is punishable by law.
